

## **How to use Rate my Review cards**

Print Rate my Review cards on to blank thin card.

Print reverse side of card with Rate my Review general.

Cut up.

Distribute these cards after a review for a child or young person to return to you anonymously.

Explain to the child or young person to put a mark somewhere between the two faces. Far left, near the grumpy face, means not at all. Far right, near the smiley face, means completely. A middle mark would mean somewhere in-between.

Use the feedback to inform what went well about the pupil centred review and what needs to be considered further.
