

## Building a Centre of Excellence for Disabled Children and their Families in York

April 2018

### What we have done

- Developed and agreed a project plan with milestones and timescales for the implementation of the whole project. Anticipated completion date is Spring 2020
- We have started a Section 77 DfE application to use and build on surplus playing fields at Hob Moor School
- A co production approach with has been continued to develop feasibility work into detailed plans for a planning application
- We are working closely with the planned development at Lincoln Court Older Persons Accommodation (next door) to ensure plans, designs and construction work effective together
- We have delivered planned consultation and engagement sessions with front line workers, Hob Moor School, the local community and key partners and stakeholders

### What we plan to do next

- Start the process of recruiting the construction contractor and make a decision about what time to involve them in the design plans
- Think about the risks to the overall project and make sure these are identified and carefully managed
- Develop and agree detailed plans for a planning application and submit this application
- Submit Section 77 application to DfE to use school playing fields and planning application to further develop Hob Moor School playing fields

### How you can you be involved

Keep checking the web page for up to date information.

If you have ideas, questions, feedback please send this to [COEdisabledchildren@york.gov.uk](mailto:COEdisabledchildren@york.gov.uk) .
